Career Objective

A UI/UX and Web Designer, with a passion for crafting adequate user experience. I belief in combining creativity with analytical thinking to design interfaces. My enthusiasm for learning help me to keep updated with industry trend and practices. I aim to get a job as UI/UX and Web designer where i can leverage my creativity skills.

EDUCATION

Bachelor Of Engineering | CGPA 7.41
Mechanical Engineering
2021 - 2023
Gujarat Technological University

Diploma Engineering | CGPA 8.39
Mechanical Engineering
2017 - 2020
Gujarat Technological University

10th (S.S.C.) | 70%
2015
Gujarat Secondary and highersecondary Education Board

PROJECTS

E-Commerce Website
UI/ UX design
[Figma,Photoshop]

Designing an ecommerce website with a captivating UI using Figma, Adobe Illustrator, and Photoshop involves meticulous attention to detail and creativity. Utilizing Figma, I'll craft a user-friendly interface by designing various components such as navigation bars, product grids, and checkout forms. Adobe Illustrator will be employed for **vector graphics**, creating custom **icons, logos, and illustrations** to enhance visual appeal. Photoshop will enable me to manipulate images, apply stunning **effects**, and ensure consistency across the design. Employing these tools, I'll create different **variations and components**, ensuring a seamless user experience and incorporating attractive effects to engage visitors. From **dynamic animation**s to sleek typography, every aspect will be crafted to captivate **users and drive conversions**, resulting in an ecommerce platform that not only looks visually stunning but also functions seamlessly.
Pet Care application
UI/ UX design
[Figma,Photoshop]

Designing a pet care application with Figma and Photoshop involves initial wireframing in Figma, outlining key features like pet **profiles, services, and appointments**. Then, transitioning to Photoshop, detailed UI elements are crafted, focusing on **color schemes, typography, and branding**. Prototyping in Figma brings the design to life with interactive elements and transitions. Iterative feedback loops refine the design for optimal user experience. This process showcases proficiency in both Figma and Photoshop, emphasizing skills in **wireframing, UI design, prototyping, and iterative development**, vital for resume enhancement and job applications.
MY SKILLS

| Skill	Rating
Adobe Photoshop	7/10
Adobe XD	8/10
Figma	8/10
Adobe Illustrator	7/10
Corel Draw	6/10
Premier Pro	6/10
HTML	
CSS	
Java Script	
jQuery	
Bootstrap
